

# Sustainable Finance

Many projects and companies in Africa, Asia, and Latin America need, for example, funding for pre-finance farmers or require funding for investments in infrastructure or warehousing. These parties often lack access to financing due to various risks, including crop instability, weather uncertainties, and price volatility.

Sustainable finance takes due to Environmental, Social, and Governance (ESG) considerations when making investment decisions in the financial sector, leading to increased longer-term investments into sustainable economic activities and projects. We call this 'sustainable' because either the companies are certified under an organic or sustainable scheme, or we recognize that the financing facility will help the company develop into a sustainable business.

Companies must adhere to the Environmental and Social Performance Standards to improve sustainability performance. In Peterson Projects and Solutions, we can support your business in creating a sustainability report. Our consultancy will comply with the standard of your choice.

**We can deliver our sustainable finance consultancy in many types of services, including:**

1. Assessment of your business adherence to the Environmental and Social Performance Standards, including:
  - Assessment and management of environmental and social risks and impacts
  - Labour and working conditions
  - Resource efficiency and pollution prevention
  - Community health, safety, and security
  - Land acquisition and involuntary resettlement
  - Biodiversity conservation and sustainable management of living natural resources
  - Indigenous peoples
  - Cultural heritage
2. Assistance with commercial, procurement, and financial due diligence

Our advice and support are based on almost 100 years of experience and expertise in providing solutions to a broad range of customers, including multinational companies, small and medium-sized enterprises, associations, non-governmental organizations, and governments.

**We assure you that your trust is well placed.**
